OHS ACADEMY
2015
CONSULTANCY | TRAINING | SERVICES

About Us

At OHS Academy, we are dedicated to creating safer work environments through professional safety management, training, and compliance services. With over 15 years of experience in occupational health and safety across multiple high-risk industries including construction, oil & gas, and manufacturing, we bring deep expertise and a proactive approach to risk prevention.

Our team holds globally recognized certifications such as NEBOSH, IOSH, OSHA, ISO, OTHAM, NVQ, RIGGER and LIFTING SUPERVISOR ensuring that we stay aligned with international safety standards.

Our mission is to protect people, property, and the environment by promoting a strong safety culture and ensuring our clients meet regulatory requirements efficiently and effectively.

We offer a full range of services including site safety audits, training sessions, incident investigations, emergency response planning, and customized safety programs.

Choose OHS Academy for reliable, compliant, and cost-effective safety services. Your safety is our priority.

Mission

At OHS Academy, our mission is to deliver internationally recognized safety training programs tailored to the needs of high-risk industries such as construction and oil & gas. We equip professionals with the knowledge and skills to drive compliance, reduce hazards, and to promote a safe, healthy, and compliant work environment by providing expert safety solutions, practical training, and proactive risk management. We are committed to protecting lives, reducing workplace incidents, and ensuring that every worker returns home safely every day.

Vision

Our vision is to become a leading force in occupational health and safety by setting the standard for excellence, innovation, and integrity. We aim to foster a global culture where safety is not just a requirement but a shared responsibility and core value in every organization. To be the most trusted safety training provider in all over the world, building a competent workforce that values health, safety, and sustainability at every level.

OHS ACADEMY
2015
CONSULTANCY | TRAINING | SERVICES

Core Objectives

1. Enhance Occupational Safety Knowledge
To provide comprehensive education and training on occupational health and safety principles, standards, and best practices to workers, supervisors, and safety professionals.

2. Promote a Safety-First Culture
To foster a proactive safety culture across all organizational levels by instilling the values of hazard awareness, risk management, and personal accountability.

3. Develop Competent Safety Leaders
To equip participants with the necessary skills and certifications to lead safety initiatives, conduct inspections, and implement effective control measures in the workplace.

4. Support Regulatory Compliance
To ensure all training and programs align with national and international OHS regulations (e.g., OSHA, ISO 45001), thereby supporting organizational compliance and reducing legal risk.

5. Reduce Workplace Incidents and Illnesses
To contribute to the reduction of workplace injuries, illnesses, and fatalities through targeted training programs, simulations, and continuous improvement strategies.

6. Encourage Continuous Professional Development
To offer progressive training modules and refresher courses that support lifelong learning and adaptability in an evolving industrial and regulatory landscape.

7. Facilitate Research and Innovation in OHS
To promote research, case study analysis, and the development of innovative tools and techniques for improving occupational health and safety outcomes.

8. Collaborate with Industry Stakeholders
To build strategic partnerships with industry leaders, regulatory bodies, and academic institutions for knowledge sharing and development of unified safety standards.

CEO *Message*

As the CEO of OHS Academy Pvt. Ltd., it fills me with pride to reflect on our journey since 2015. When we started, our mission was clear — to create a platform where individuals could not only receive quality health and safety education but also secure meaningful employment in industries that demand skilled professionals.

In less than a decade, we have trained and certified over 9,000 students, and supported more than 1,200 graduates in securing jobs in local and international organizations. These numbers represent more than statistics — they represent families supported, careers built, and industries made safer.

We firmly believe that safety is not just a compliance requirement but a moral responsibility. Industries across the globe are becoming increasingly dependent on trained professionals who can uphold safety standards, and OHS Academy is proud to be producing exactly those professionals.

Looking forward, our commitment is to expand our training footprint, introduce new certifications, and strengthen partnerships with global awarding bodies. We see OHS Academy not just as a training institute, but as a career-building and nation-strengthening organization.

Signed,
Farooq Khan
Chief Executive Officer
OHS Academy Pvt. Ltd.
